<tr>
<td>1.</td>
<td><strong>What level of overhead are we able to apply to an application? Do you expect to see Full Economic Costing?</strong></td>
<td>As stated in previous clarifications responses, successful PCN applicants that are requested to submit full proposals will be provided with more detailed information on budget eligibility at later stage. Nonetheless, we advise that proposed projects should clearly demonstrate that costs are both appropriate and commensurate to expected benefits. Evidence of value for money can also include the existence of co-funding, or collaboration with another transport-focused development programme. At this stage of the process, we are requesting an overall budget estimate in accordance with the overall budget ceilings stated in the Call for PCNs. Applicants should state the total budget estimate where indicated in the PCN form. The full breakdown is not requested at this stage of the process.</td>
</tr>

</table>

**Additional communications:**

1. The deadline for submission of PCNs is **17:00 (BST), Monday, 8 June 2020**. No PCNs will accepted after this date and time.
2. **All** sections in the PCN form must be completed.
3. The maximum acceptable length of a PCN is **four (4) pages**. PCNs will not be accepted if they exceed this page limit.
4. No additional information or documentation is to be submitted with a PCN. Only the PCN form will be screened and assessed.
5. Each submitted PCN will need to refer to **one lot only** by indicating the relevant lot in the PCN form. If more than one lot is indicated in an individual form, it will not be accepted. However, applicants are free to submit multiple PCNs (for different projects) under more than one lot. In deciding the number of projects that can be awarded to any one applicant the capacity of the applicant to deliver and the overall risk to the programmes will be taken into consideration.
6. PCNs are to be written in English. If written in another language, a translation in English must accompany the PCN submission and according to the page limits stated in point 2 above.
7. The budget requested in the PCN form must be in GBP.
8. The ReCAP and HVT Teams will be accepting and responding to clarifications **up to 17:00 (BST), Thursday, 4 June 2020.** No clarifications in response to this Call for PCNs will be provided thereafter.
